

From the sophisticated Tempo t39 sofa moduls, reduced in their forms, can be built various kinds of seating solutions according to the needs of the customer.

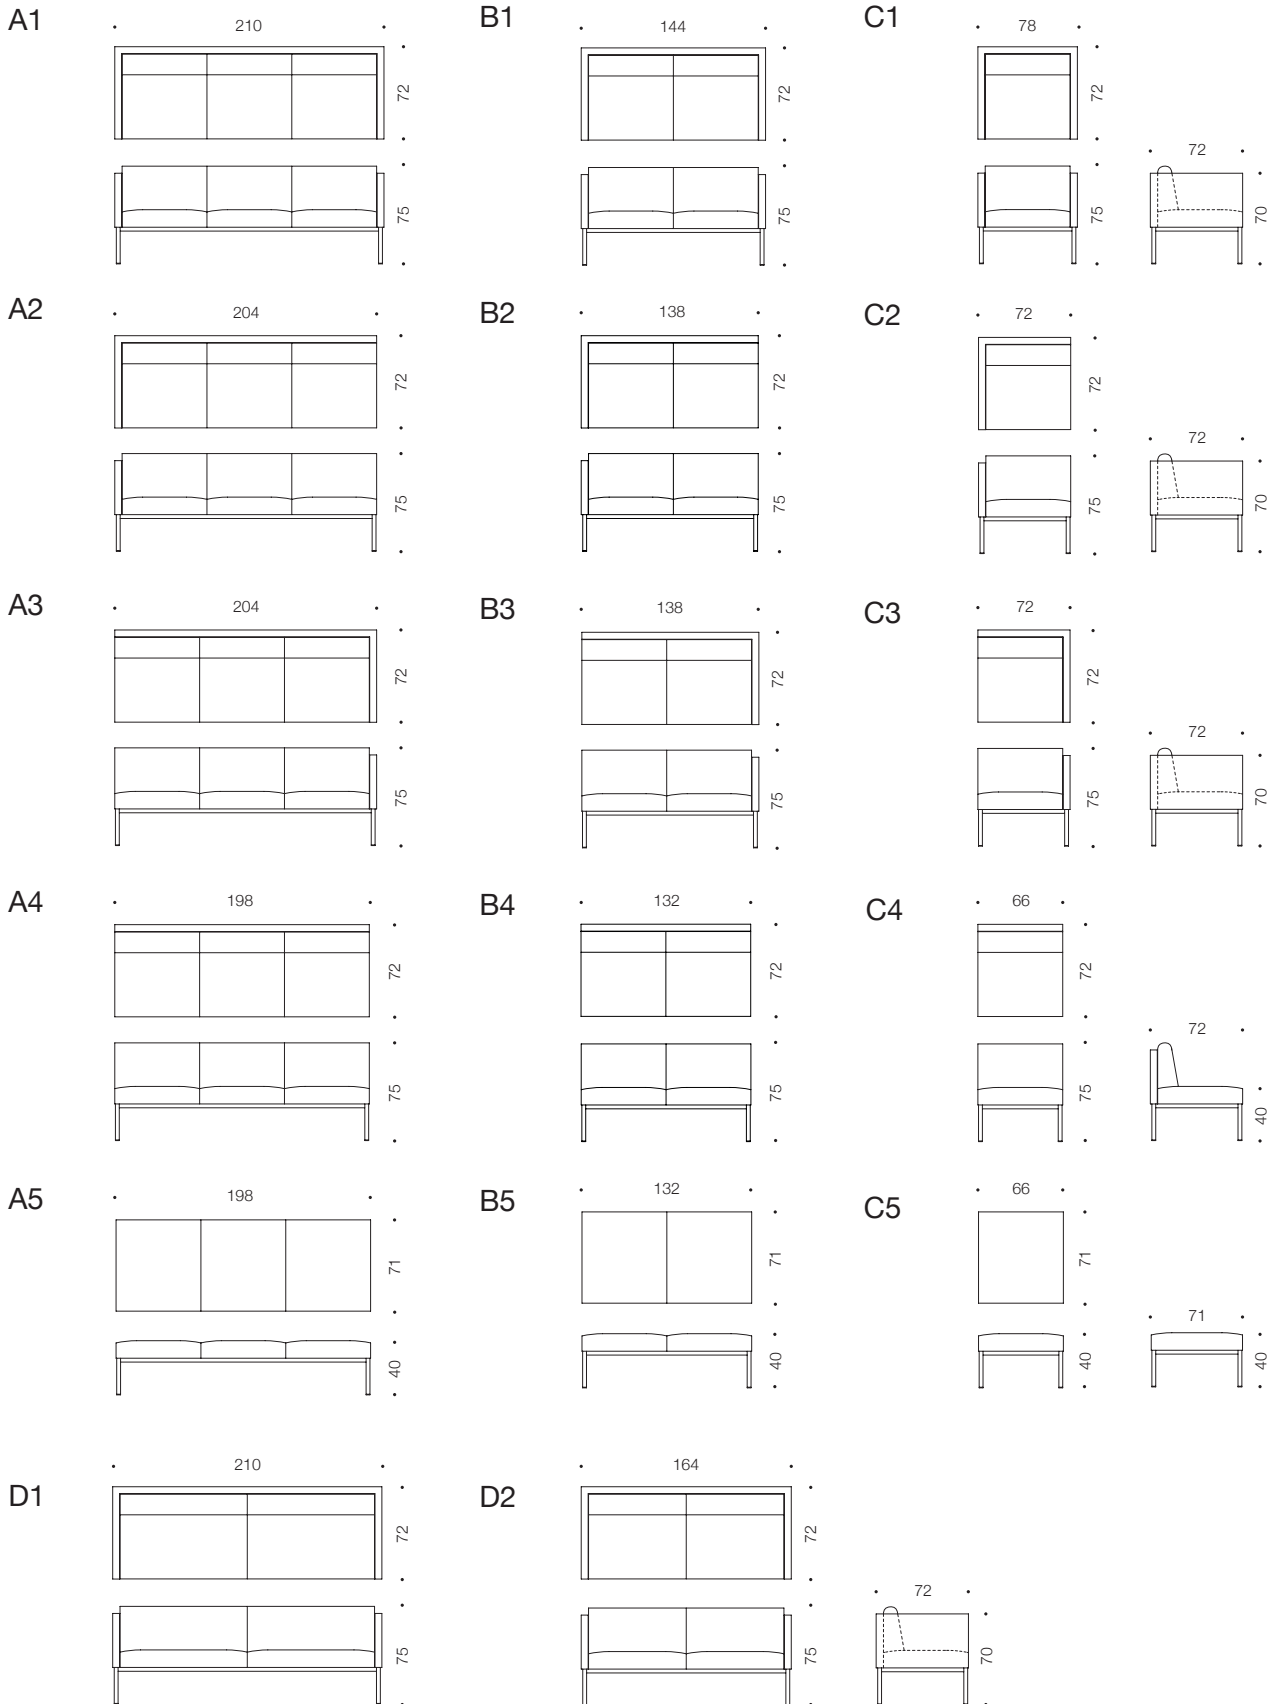

The structure of the Tempo sofas is made of steel tube and birch veneer, the upholstered pieces being foam and wadding. The fabric can be chosen by the customer.

The sofa moduls are from their dimensions designed to give good sitting position. Seat height is 40 cm. It is easy to sit down on the Tempo sofas as well as stand up.
